

## BUSINESS WITH PEOPLE

### Extended DISC® Surveys Platform

*Extended DISC® Surveys Platform* is an online platform that allows clients to conduct survey applications using their own instruments. It eliminates the administrative frustrations by automating the process.

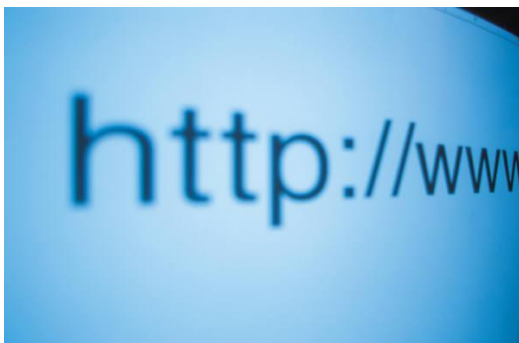

#### What is Surveys Platform?

*Surveys Platform* is a customizable and flexible tool for conducting large scale surveys cost effectively. Organizational Climate Surveys and Customer Satisfaction Surveys are among the most popular applications.

#### How does the process work?

1. You provide us with your survey questionnaire or let us develop one for you. We can also assist you in the development of the questionnaire to allow you to measure your specific organizational development initiatives.

2. The system automatically sends the participants their access code and personal password via email.
3. The participants complete the questionnaire online. The system ensures their responses remain anonymous and confidential.
4. The reports are generated.

#### How customizable is Surveys Platform?

*Extended DISC® Surveys Platform's* versatility allows the instruments to have:

- 1 to 12 question groups and 1 to 12 questions per question group.
- Up to 4 open-ended questions to provide confidential, honest and unfiltered feedback.
- Answer scale can have anywhere between 3 and 5 steps.

#### How can I learn more?

Contact us today. We can answer your questions and provide you with a sample report. We are confident that you will like what you see.
